

# ELEGAM HD

1080p  
FULLHD

## Työntökamera DN40 - DN125

### Description

The ELEGAM HD is another new member of the ELEGAM series. It is equipped with a Full-HD Ø23 mm axial head, a lightweight integrated reel, a detachable pad controller with an 8" screen, and an 8x electronic zoom function. Videos/images can be transmitted or saved in real-time to a mobile phone via an app. This allows for efficient and portable inspection of small pipes.
